

KIDS 2016-2017 Submission Details Document: TEST

Introduction

This document contains information specific to the submission of TEST records to the Kansas Individual Data on Students (KIDS) System for the TEST Collection. The TEST Collection focuses on gathering data for State assessments.

Submission Guidelines

Submission Window

- August 1, 2016—August 31, 2016 (correction window for 2016 TEST data)
- August 22, 2016—June 30, 2017
- Student data that is submitted for TEST should be current as of the day the student takes an assessment

Students to Submit

- Grades 3-12 who are eligible to take State assessments
- Students entering a school after a specific date do not have to be tested:
 - March 14, 2017 – Summative Math, ELA, and Science
 - January 31, 2017 – DLM Math, ELA, and Science
 - March 10, 2017 – K-ELPA

Who Submits?

- Accountability School or the Attendance School
- When both the accountability and attendance buildings submit TEST records for the same student for the same test subject, the last record submitted will be used to generate the test ticket in KITE

The Use of TEST Submissions

- The current TEST record by Attendance School and test subject will be used to provide information to CETE for State assessments test tickets
- The assessment results of all students submitted to KIDS on TEST records will be counted towards the Accountability School by KSDE for accountability purposes
- TEST records are not used for Interim assessments or DLM assessments

The demographic fields* from the most recently submitted TEST record are used to determine student sub-groups for accountability purposes.

* Demographic fields are:

- D8: Gender
- D12: Hispanic Ethnicity
- D30: Comprehensive Race

- D31: Eligibility for National School Lunch Program
- D32: Primary Disability Code
- D35: Residence of Homeless Student while Homeless
- D37-D42 ESOL Fields
- D50: Military Connected Student Indicator

Fields not listed	Values submitted in these fields will not be validated or stored on the indicated Record Type.		
E	Must be blank		

Optional fields are validated and stored if submitted. All other data fields that are neither required nor optional for TEST may be left blank. Values in data fields that are neither required nor optional for TEST are not validated and will not be stored. The exception to this is EXIT data (Exit/Withdrawal Date, Exit/Withdrawal Type, and Post-Graduation Plan); exit data fields **MUST** be blank on TEST records or an error will be generated.

KIDS Reports

Reports are provided in the KIDS Collection System for verification and research of submitted data. Although data can also be shared by generating the appropriate KIDS reports, KIDS users

can share detailed data with the principals, superintendents and program staff by encouraging them to register for Read-Only access to the KIDS Collection System. Read-Only access is recommended since reports are dynamic and may change if additional TEST records are submitted to KIDS.

The detailed descriptions of each of the reports available in the KIDS Collection System may be found on the KIDS project website at <http://kidsweb.ksde.org/> under the “Report Descriptions” tab or visiting this website: <http://kidsweb.ksde.org/Report-Descriptions>. The following reports particularly important to TEST submissions:

Standard Reports:

- ☐ Accepted Records by Type-TEST
- ☐ Current Year Accountability Students

Assessment Reports:

- ☐ TEST Records for State Assessments
- ☐ TEST Records for ELPA Assessments
- ☐ TEST Records for cPass Assessments
- ☐ Cleared Assessments Roster

State Assessments

English Language Arts (ELA) and Math Assessments: For the 2016-2017 school year, grades 3-8, and 10 will take the ELA and math assessments.

Science Assessment: For the 2016-2017 year, students in grades 5, 8, and 11th will take the science assessment.

History/Government Assessment: History/Gov. Assessment will not be given during the 2016-2017 school year.

Career Tech Ed Pathways Assessments (cPass): Students in grades 10-12 have the opportunity to take CTE assessments: General CTE Assessment, one of the available End of Pathways Assessments, and/or a Career Competency Qualifier (CCQ).

State English Language Proficiency Assessment (ELPA): For 2016-2017, the ELPA will be administered through CETE. The indication of ELPA on a TEST record will generate a test ticket in KITE. This may also be referenced as K-ELPA in other documentation.

Dynamic Learning Map (DLM): For the 2016-2017, DLM assessments will be administered through KITE, but the data to populate the test ticket will not be sent to KIDS.

Interim: For the 2016-2017 school year, TEST records are not used to set up Interim assessment. TASC records will be used to set up Interim assessments.

TEST Notes/Recommendations

The list of recommendations, notes, and submission tips below apply to the TEST record. In working with the KIDS System, many circumstances apply only to the record you are submitting. How each data element is reported may differ for other submissions from the recommendations appearing below:

When the Accountability School is ‘0001’ or ‘0002’: When ‘0001’ or ‘0002’ is entered

in the Accountability School, the Attendance School must contain a valid school ID number or district central office of the submitting district. These students' assessment results will be included in the accountability determinations of the Attendance School.

School Entry Date: School Entry Date should be based on the date the student entered the Accountability School or Attendance School, depending upon which school is submitting the TEST record. In the case where the student's Accountability School is marked with a 0001 or 0002, the School Entry Date should report the date the student entered the Attendance School.

Reporting the Attendance School: The Attendance School field on the TEST record is used to determine where students will physically take assessments.

Students taking Multiple Assessments: For students taking multiple assessments, a school can submit separate TEST records for each assessment subject OR one TEST record that includes information for all assessments. For example, if "John Doe" is taking the ELA and mathematics assessments, then his school could submit one TEST record with the appropriate test type information in the corresponding assessment fields, OR the school could submit a TEST record for the ELA assessment and a separate TEST record for the mathematics assessment.

Updating Earlier TEST Submissions: If a school/district submits a TEST record for a student early in the TEST submission window and that student's demographic and test information does not change, then the school/district does not need to submit any other assessment information to KIDS for that student. If a TEST record is submitted for a student and that student's demographic and/or test information changes (i.e., the student was submitted on a TEST record as not taking the mathematics assessment but he/she will actually take the math assessment), then another TEST record (with the same Accountability and Attendance schools) must be submitted for that student in order to correct/update the information,

If a student is taking more than one assessment and the student's demographic and/or test information does not change for every test type, then send the updated TEST record with the updates indicated for only the test type(s) that it applies to at the time the student takes the assessment.

Students Moving Between Schools During the Assessment Window (March 14, 2017—April 28, 2017): Because TEST records are unique by Accountability School; Attendance School; Student State ID (SSID); and assessment subject area, different Accountability schools can submit TEST records for the same student. For example, if "John Doe" takes the ELA assessment at School A but then moves and takes the mathematics assessment at School B, then School A would submit a TEST record for the ELA assessment and School B would submit a TEST record for the mathematics assessment.

Grouping Indicators: Grouping indicators are used to indicate the method by which the district want **test tickets** sorted for distribution to schools. Grouping Indicator 1 is the primary way by which the district wants a particular assessment test tickets sorted for distribution to schools. Grouping Indicator 2 is the secondary way by which the district wants a particular assessment test tickets sorted within Grouping Indicator 1. Example: Grouping Indicator 1 = Mrs. Smith and Grouping Indicator 2 = 1st period.

Clearing a Test Subject: In order to clear a particular test subject from a previously-submitted TEST record, the school/district can send another TEST record with the exact same data including (Accountability School and Attendance School) for that student with a “C” (clear test subject indicator) code in the test subject field to be cleared. The “C” code can be sent for any grade level for all assessment subjects. The purpose of the “C” code is to “clear” a student from the test roster for a particular subject area when a TEST record was erroneously submitted for that student. The “C” removes that specific test subject from the student’s list of assessments.

For example, if “Jane Doe” was submitted on a TEST record as taking the ELA and mathematics assessments but the ELA assessment was a mistake, then another TEST record should be submitted for “Jane Doe” with a “C” in the ELA subject field. Because the “C” code is specific to a test subject area, submitting a “C” code for a particular subject would *not* impact the rosters of any other assessments for which “Jane” was registered (in this example, mathematics).

Submitting a TEST record with a “C” value for an assessment that has already been started or has been completed by the student in question will NOT serve to remove that student’s assessment results from calculations. KSDE staff will investigate situations such as these to determine whether the “C” code was submitted in error, or if further action is needed. Schools can access the Cleared Assessments Roster report in KIDS for a list of students for whom a TEST Record with a “C” code has been submitted.

Clear Codes and EXIT Records: The “C” code should not be confused with the submission of EXIT records to KIDS. The “C” code allows schools to remove students from assessment rosters if they were submitted in error as taking an assessment. EXIT records, in contrast, are submitted for students who are no longer in membership. EXIT records will remove students from a school or district’s state assessment roster and the accountability performance and/or participation calculations (depending on the exit and school entry dates for that student); but unlike the “C” code, EXIT records are not subject-specific. Consequently, submitting an EXIT record to KIDS will remove a student from the school’s roster for *all* test subjects (depending on the exit and school entry dates for that student) unless the student has already completed a particular assessment.

For example, if “Jane Doe” was submitted on a TEST record as taking the ELA, mathematics, and science assessments at School A but Jane moved to Nebraska before the testing window opened, then School A would submit an EXIT record for Jane (rather than submitting another TEST record with “C” codes in the ELA, mathematics, and science subject fields). If Jane moves during the testing window and has completed the ELA assessment but has not completed the mathematics or science assessments, then the EXIT record would remove Jane from the School A’s roster for math and science, but the ELA assessment may be counted for performance and participation. A “C” code submitted in one or more test subject areas on a TEST record does not replace the submission of EXIT records for students who move, dropout, graduate, transfer, etc. during the course of the school year.

TEST Records with ‘0’ in an Assessment Subject Area: Submitting a TEST record with a ‘0’ in a test subject field that previously contained a value will **not** remove a student from the test roster for that subject. For example, if “Jane Doe” was submitted on

a TEST record as taking the ELA assessment and then another TEST record is subsequently submitted for “Jane” with a ‘0’ in the ELA assessment field, nothing will happen—that student will not be removed from the ELA assessment roster. Only the submission of “C” codes in test subject areas (or the submission of an EXIT record if applicable) removes the student from the Accountability School’s state assessment roster.

Do not send a TEST with ‘0’ in all assessment fields. There should be a value in at least one assessment field.

School Entry/EXIT Withdrawal Dates: It is essential that the School Entry Date on TEST records and the EXIT/Withdrawal Date on EXIT records be updated and reported accurately for students that move within a district as well as out of a district during the school year, since these dates will be used to determine which students will be included for participation and/or performance in accountability calculations.

Eligibility for National School Lunch Program: Community Eligibility Provision (CEP) schools will need to make sure to report students that are **eligible** for free or reduced lunch based on Direct Certification or the Kansas Household Economic Survey. Non-CEP schools do not need to change the way this data has been reported. CEP schools should NOT report 100% in this field based on CEP. This field collects a student’s eligibility, not how a student pays for lunch.

Proctor Fields: The purpose of these fields is to give schools the ability to add an additional licensed educator to a student for ELPA Assessments. The fields allow the user to ensure that the correct educator is provided for this student.

- A proctor must be a licensed educator with an Educator ID with an academic connection to the student.
- Provides access to the student in the Educator Portal in KITE.
- There is a limit to one proctor per student
- This is not intended to be for non-licensed paras.
- This is not intended to link a licensed educator with no academic connection to the student.
- This is not necessarily the person sitting in the room administering the assessment.

End of Pathways cPass Assessments: are separated into individual content area assessments (i.e. Comprehensive Agriculture, Animal Systems, Plant Systems, etc.).

cPass Assessment Only – If you find that you sent the wrong option for a cPass assessment, you must first clear a previously submitted cPass assessment by sending a ‘C’ before you can update the test type. It will not update by simply sending an updated TEST record like it does for other assessment.

Shared Student: There are multiple situations where schools share a student. Please review the scenarios below when working on TEST data.

In cases where schools share a student and both schools will be assessing the student in different subject areas, both public and private schools will see an increase in gained/lost claiming emails sent from KSDE to reflect that the student has more than one

Accountability School submitting TEST records. Both schools should be careful to only submit records for subject areas they intend to test a shared student to ensure accuracy when test results are used to determine each school's accountability measures. As long as accurate TEST records are submitted from each school with the appropriate building codes for the Accountability School, a school does not need to 'reclaim' a student to administer the requested state assessment to the student.

1. A public school is providing math instruction and assessing a student in math. A private school is providing instruction in all other assessed content areas and will be assessing a student in ELA, science, and history/government.

3. One public school is assessing a student in all content area, but they are not the Accountability School for the student. Another public school district is the Accountability School for the student in all assessed content areas, but they are not providing instruction in a building on their campus and contract with another district or program. Either school can submit the TEST record, but both should communicate with the other for clarification. Either way, the TEST record will look the same.
