2016-2017 KIDS Planned Changes

Introduction

This document outlines the updates and changes to be made to the KIDS Collection System for 2016-2017. Fields are being added and removed resulting in renumbering of many of the data fields. This document references the new 2016-2017 field reference numbering. A conversion chart has been provided and can be found in Appendix A. The KIDS Collection Field Requirements by Record Type was added as Appendix b. A Who Submits KIDS Records was added as Appendix C. A list of Special Facilities with Diploma Completion Services was added as Appendix D. The new list of First Languages Codes was added as Appendix E.

Modifications to KIDS for 2016-2017 are made because of changes in requirements due to the passing of Every Student Succeeds Act (ESSA), bills passed by the Kansas legislature, and to fulfill the vision of the Kansas State Board of Education.

Data Fields

D2: Accountability School ID
- District Central Office should not be used for K-12 students. We are implementing a rule that will only allow adult students (grade level 18) and pre-kindergarten students (grade levels 00-04) to have the district central office as the Accountability School ID.

D17: Virtual Education Student
- Remove value 3 = Virtual AP Student
- *This change is being made because we no longer use that value for funding determinations.*

- ### D21: Cumulative Number of Days in Membership
    - The definition changed to add 'and receiving instruction.'
    - *This change is being made for clarification.*

D22: Cumulative Number of Days Attended
- We are providing an updated definition to the Cumulative Number of Days Attended field. A student is considered absent if he or she is not physically on school grounds and is not participating in instruction or instruction related activities at an approved off-grounds location. Any absence by a student for any reason, regardless of whether the absences are excused or unexcused (e.g. illness, suspension, parent permission), should not be included in the number of days attended. Students will be included in federal reporting of chronic absenteeism if the student missed 10% of the school days in which they were enrolled in the school.
- KSDE will calculate chronic absenteeism based upon the data reported in EOYA records by dividing the Cumulative Number of Days Attended field by the Cumulative Number of Days in Membership. We will provide a report that you can run in KIDS that will show chronic absenteeism by building and by district. See the Reports section of this document.
- *This change is being made to comply with new federal requirements in reporting chronic absenteeism.*

D27: Exit/Withdrawal Type
- Remove value 7 = Matriculation to another school. It is our recommendation that districts instead use the value 1 = Transfer to a public school in the same district.
- Updated definition to value 15 = Transfer to a juvenile or adult correctional facility where diploma completion services are provided.
- Updated definition to value 18 = Student data claimed in error by an ASGT record
- Updated definition to value 20 = Transferred to a juvenile or adult correctional facility where diploma completion services are not provided.
- Updated definition to value 23 = Student with an extended absence at the beginning of the school year (through September 30), planning to return. This also has a new footnote associated with it.
- *This first change is being made because we do not use that value. The other updates are for clarification purposes.*

D35: Residence of Homeless Student while Homeless
- Add as a required field to TEST records
- *This change is being made to allow for a new subgroup for Accountability based on requirements in ESSA.*

D38: First Language
- We are moving to a new list of languages. We will no longer collect languages using the values that were 2-digit numeric values and will now be collecting a 3-digit alphanumeric value.
- A new language code list has been added to the appendix.
- *These changes are being made to help with reporting First Language correctly.*

D50: Military Connected Student Indicator
- The name of this field has been updated from 'Child of Military Family' to 'Military Connected Student Indicator.'

- This field will now be required on TEST and EOYA records.
- Allowable values:
  - 0 = Student is not military connected
  - 1 = Student is a dependent of a member of the Active Duty Forces (full-time) Army, Navy, Air Force, Marine Corps, or Coast Guard
  - 2 = Student is a dependent of a member of the National Guard or Reserve Forces (Army, Navy, Air Force, Marine Corps, or Coast Guard)
- *This change is being made to allow for a new subgroup for Accountability based on requirements in ESSA.*

(Formerly) D53: Student in Foster Care
- We originally indicated that we would be collecting this data for the 2016-2017 school year, but we will not collect this data until the 2017-2018 school year.
- *We will not be collecting this data until next school year to allow us time to provide clear guidance on what we need and how to collect it.*

D62: Financial Literacy Grouping Indicator 1
- Definition: The primary way by which the district wants financial literacy test tickets sorted for distribution to schools.
- *This is being added as an optional field so that schools/districts have the ability to sort test tickets.*

- Definition: The secondary way by which the district wants financial literacy test tickets sorted within Grouping Indicator 1.
- *This is being added as an optional field so that schools/districts have the ability to sort test tickets.*

- Definition: The way by which the district wants AV Communications test tickets sorted for distribution to schools.
- *This is being added as an optional field so that schools/districts have the ability to sort test tickets.*
