

Assessment Reports

Report Name: Cleared Assessment Roster

Report Description: This report provides information about TEST records submitted to KIDS by either the Accountability School or an Attendance School or district with a “C” code for any subject. If an Accountability school sends a TEST record indicating an assessment for a particular student and subject, and an Attendance School submits a “C” code record for the same student and subject, the Accountability School’s record takes precedence, and the “C” coded record will not appear in the Cleared Assessments Roster.

KIDS Record Type: TEST

Update/ Refresh Cycle: Automatic

Report Name: TEST Records for cPass Assessments

Report Description: This report provides information about TEST records submitted to KIDS for the State English Language Proficiency Assessment by either the Accountability School or an Attendance School or District. Users can see the most recent TEST records submitted with their school listed as the Accountability School or Attendance School for each student by subject. If a “C” code has been submitted for a student in any subject, the record for that subject will be omitted. Users may refer to the Cleared Assessments report for information on subjects that have been cleared. If an EXIT record was submitted for the student, the corresponding TEST record(s) for that student will NOT be removed from this report. Those TEST records will still be included in this report. This report can be filtered by building type, assessment type, subject, and grade level.

KIDS Record Type: TEST

Update/ Refresh Cycle: Automatic

Report Name: TEST Records for KELPA2 Assessment

Report Description: This report provides information about TEST records submitted to KIDS for the State English Language Proficiency Assessment by either the Accountability school or an Attendance school or district. Users can see the most recent TEST records submitted with their school listed as the Accountability School or Attendance School for each student by subject. If a “C” code has been submitted for a student in any subject, the record for that subject will be omitted. Users may refer to the Cleared Assessments report for information on subjects that have been cleared.
