#### **Current Year Credit by Student Report**

The purpose of this report is to help school and district staff view the total amount of credit submitted on STCO records for each student by the Educator School. This report can be used to help determine where inconsistencies are in reporting student course outcome data to KSDE.

Courses with a Course Status of 01 will be used in the credit calculation. The report can be filtered to display all students in a grade level or for only one student.
