## QERY Collection

**For more in depth information, please check out the Submission Details Document-QERY v15.00 on the KIDS website**

**Purpose:** This record type enables the school or district to obtain data about specific students previously submitted to the KIDS Collection System. The QERY record is an optional record type that is used to return the most recent information about a student. This may potentially be from a student's previous Accountability School. The amount of information returned from a QERY record submission is dependent upon the submitting school's relationship to the

## **K I D S 2020-2021 Collection System File Specifications**

student, and on the amount of information included in the QERY submission. More data is returned if the student's current Accountability School submits the QERY record.

### **Submission Window**

- Any time the KIDS Collection System is open.
- QERY records must be submitted in a batch file by themselves—they cannot be mixed in a KIDS batch file with other record types (such as ENRL, TEST, ASGT, etc.).

### **Students to Submit:**

QERY records may be submitted for any student in order to receive, via batch file, the most recent KIDS data submitted for a student.

- Any student.
- If you have claimed the student, the data returned to the user will be the most recent data submitted by your school.
- If the student was claimed by another school/district, the data returned will be the most recent data submitted by the student's current Accountability School.
- If the report is generated at the district level and both schools are within that district, the data returned will be that of the current Accountability School.

### **Who Submits?**

- Any school (Accountability, Funding, or Attendance) may submit QERY records.
- This is not a required submission.
- The type of data that is returned on a student will depend on whether the school submitting the QERY record is the current Accountability School for that State Student ID (SSID) or not. More data elements are returned to the current Accountability School because the student will be included in their accountability calculations. FERPA regulations only allow the current school to have access to a student's data.
