QERY Collection

For more in depth information, please check out the Submission Details Document-QERY v18.00 on the KIDS website

Purpose: This record type enables the school or district to obtain data about specific students previously submitted to the KIDS Collection System. The QERY record is an optional record type that is used to return the most recent information about a student. This may potentially be from a student's previous Accountability School. The amount of information returned from a QERY record submission is dependent upon the submitting school's relationship to the student, and on the amount of information included in the QERY submission. More data is returned if the student's current Accountability School submits the QERY record.

KIDS 2023-2024 Collection System File Specifications

Submission Window

- Any time the KIDS Collection System is open.
- QUERY records must be submitted in a batch file by themselves—they cannot be mixed in a KIDS batch file with other record types (such as ENRL, TEST, ASGT, etc.).

Students to Submit:

QUERY records may be submitted for any student in order to receive, via batch file, the most recent KIDS data submitted for a student.

- Any student.
- If you have claimed the student, the data returned to the user will be the most recent data submitted by your school.
- If the student was claimed by another school/district, the data returned will be the most recent data submitted by the student's current Accountability School.
- If the report is generated at the district level and both schools are within that district, the data returned will be that of the current Accountability School.

Who Submits?

- Any school (Accountability, Funding, or Attendance) may submit QUERY records.
- This is not a required submission.
- The type of data that is returned on a student will depend on whether the school submitting the QUERY record is the current Accountability School for that State Student ID (SSID) or not. More data elements are returned to the current Accountability School because the student will be included in their accountability calculations. FERPA regulations only allow the current school to have access to a student's data.

The program maintains and develops skills in the primary language and culture while introducing, maintaining, and developing skills in English. The primary purpose of a TBE program is to facilitate the EL student's transition to an all English instructional program while receiving academic subject instruction in the native language to the extent necessary. 02 = Dual Language or Two-way Immersion - Also known as two-way or developmental, the goal of these bilingual programs is for students to develop language proficiency in two languages by receiving instruction in English and another language in a classroom that is usually comprised of half native English speakers and half native speakers of the other language. 03 = ESL or ELD - A program of techniques, methodology and special curriculum designed to teach EL students English language skills, which may include listening, speaking, reading, writing, study skills, content vocabulary, and cultural orientation. Typically, students attend these programs before they enter more traditional interventions (e.g., English language development programs or mainstream classrooms with supplemental ESL instruction). 06 = Maintenance Bilingual Education (MBE): MBE, also referred to as late-exit bilingual education, is a program that uses two languages, the student's primary language and English, as a means of instruction. The instruction builds upon the student's primary language skills and develops and expands the English language skills of each student to enable him or her to achieve proficiency in both languages, while providing access to the content areas. 07 = Sheltered English Instruction: An instructional approach used to make academic instruction in English understandable to EL students. In the sheltered classroom, teachers use physical activities, visual aids, and the environment to teach vocabulary for concept development in mathematics, science, social studies, and other subjects. 08 = Submersion Program: A submersion program places EL students in a regular English-only program with little or no support services on the theory that they will pick up English naturally.
