

KIDS 2018-2019 Submission Details Document: SPED

Introduction

This document contains information specific to the submission of SPED records to the Kansas Individual Data on Students (KIDS) System. The SPED record is used to allow the funding school or district to enter specific students previously submitted to the KIDS Collection System to associate the student with a special education record in Sped-Pro without claiming the student in KIDS. This record type is only for students receiving special education services and student data is not updated with this record type.

Submission Guidelines

Submission Window: Any time the KIDS Collection System is open.

Students to Submit

Students with a:

- Primary Disability Code of 'WD' in field D32
or
- Gifted Student Code of 'GI' in field D33

Who Submits?

- Funding school
- Accountability School
- Cooperative (COOP) or Interlocal can request Funding/Accountability School to submit

The Use of SPED Submissions

- To associate a student with a special education record in Sped-Pro for the appropriate Funding or Accountability Building/District.

KIDS Reports

Reports are provided in the KIDS Collection System for verification and research of submitted data. Although data can also be shared by generating the appropriate KIDS reports, KIDS users can share detailed data with the principals, superintendents and program staff by encouraging them to register for Read-Only access to the KIDS Collection System. Read-Only access is recommended since reports are dynamic and may change if additional ASGT records are submitted to KIDS.

The detailed descriptions of each report available in the KIDS Collection System are located on the [KIDS Project Report Descriptions](#) website. The following reports are particularly important to SPED submissions:

Standard Reports:

- Accepted Record by Batch

SPED Notes/Recommendations

The list of recommendations, notes, and submission tips below apply to the SPED record. In working with the KIDS System, many circumstances apply only to the record type you are submitting. How each data element is reported may differ for other submissions from the recommendations appearing below:

Scenario:

A student needs to have a claim entered in SPED-Pro but has already left your district. No KIDS record was submitted for the student by your district to associate them in the SPED-Pro system before the exited. This student has already been associated with another district.

Best Practice Recommendation:

You do not want to claim the student away from their new district. If you send an ASGT record this will claim the student in error. You can send a SPED record, which will allow your district to associate the student with a claim in SPED-Pro without claiming them away from their new district. The SPED record will make NO updates to the student record. If any updates to Core Data need to be made or a KIDS ID needs to be assigned a SPED record will not make these updates.

The following SPED record fields are required to be current year:

- D18: School Entry Date
- D19: District Entry Date
