

KIDS 2018-2019 Submission Details Document: MILT

Introduction

This document contains information specific to the submission of MILT records to the Kansas Individual Data on Students (KIDS) Collection System for the Military Student Collection. This collection gathers student enrollment data for districts whose student population significantly increases after the September 20 (ENRL) funding count due to military movement.

What's New?

- No changes for the 2018-2019 school year.

Submission Window: February 20, 2019–March 9, 2019.

- Student data that is submitted for MILT should be current as of February 20, 2019.

Students to Submit: Military Dependent Students.

- Eligible districts should submit MILT records for all students who are dependents of active, full-time military personnel, who are enrolled and attending on February 20, 2019, and who were not included in the September 20, 2018 district count.
- Districts may submit all of the students who are enrolled and attending on February 20, or only those students who meet the definition of “child of military family.” Military dependent students who were enrolled and attending on September 20 will not count again for the MILT collection funding calculations, since they were already included in the ENRL funding calculations; however, submitting them will not result in an error.

Who Submits?

The Funding School should submit MILT records. For military dependent students, schools or districts where the students are enrolled should submit MILT records.

* Accredited private schools do not need to submit MILT records.*

The Use of MILT Submissions:

The KIDS MILT collection uses the Military Connected Student Indicator (D50) field to identify students who are dependents of military personnel. This information will be used to determine if a district is eligible for additional funding.

- If the enrollment of “Military Dependent” students on February 20 (not enrolled on September 20) is 25 FTE or an FTE equal to or greater than 1% of the current year September 20 enrollment (excluding virtual students), the February 20 count will be added to the district’s enrollment.

R = Required = Must contain a valid non-blank value.

R* = Required = Must contain a valid non-blank value, including zero.

X = Required = Must contain a valid non-blank value or must be blank; blanks will be considered a null value.

O = Optional = Must contain a valid non-blank value or

must be blank; blanks will be considered no response. Field will be validated and stored, if submitted.

Optional fields are validated and stored, if submitted. All other data fields that are neither required nor optional for MILT may be left blank. Values in data fields that are neither required nor optional for MILT are not validated and will not be stored. The exception to this is EXIT data (Exit/Withdrawal Date, Exit/Withdrawal Type, and Post-Graduation Plans); exit data fields **MUST** be blank on MILT records or an error will be generated.

KIDS Reports

Reports are provided in the KIDS Collection System for verification and research of submitted data. Although data can also be shared by generating the appropriate KIDS reports, KIDS users can share detailed data with the principals, superintendents and program staff by encouraging them to register for Read-Only access to the KIDS Collection System. Read-Only access is recommended since reports are dynamic and may change if additional MILT records are submitted to KIDS.

The detailed descriptions of each of the reports available in the KIDS Collection System may be found on the [KIDS Project Report Descriptions](#) website. The following reports are particularly important to MILT submissions:

Standard Reports:

- Accepted Records by Type—MILT

MILT Reports:

- Student of Military Families—District Eligibility for Additional Funding
- Student of Military Families—Not Counted Sept 20 ENRL

MILT Definition and Population Information

The list of recommendations, notes, and submission tips below apply to the MILT record. In working with the KIDS System, many circumstances apply only to the record you are submitting. How each data element is reported may differ for other submissions from the recommendations appearing below.

Definition of Military Personnel:

The definition of a dependent of military personnel for the MILT Collection is as follows: “a person who is a dependent of a full-time, active- duty member of the military service, or a dependent of a member of any of the US military reserve forces who has been ordered to active duty.”

The allowable values are:

- ‘0’ = Student is not military connected.
- ‘1’ = Student is a dependent of a member of the Active Duty Forces (full-time) Army, Navy, Air Force, Marine Corps, or Coast Guard or a member of the National Guard or Reserve Forces called to Active Duty (full-time) at the time of submission.
- ‘2’ = Student is a dependent of a traditional part-time status member of the National Guard or Reserve Forces (Army, Navy, Air Force, Marine Corps or Coast Guard). Part-time status members participate in the traditional part-time status of one weekend a month, two weeks a year.

Military Attendance Requirements:

A student (Child of Military Family) must be enrolled and attending on February 20. If absent on February 20, 2019, then the student must have attended once on or after February 1 and once after February 20 but on or before March 4.

Military Funding Eligibility Criteria:

Districts meeting the criteria for increased enrollment of 25 FTE (full-time equivalency) military dependent students or by a number of military dependent students equal to 1% or more of the district’s total September 20 FTE enrollment are eligible for additional funding. The district’s enrollment count for purposes of state funding will be increased by the number of military dependent students enrolled and attending on February 20, 2019 who were not counted on the September 20 enrollment count. Districts should refer to the “Student of Military Families—District Eligibility for Additional Funding” Report in KIDS to see if they are qualified for additional MILT funding based on the data that they submitted to KIDS.

FTE vs. Headcount: The requirement for 25 new military dependent students and the military student enrollment 1% or more above the district’s September 20 enrollment are based on FTE and not on headcount.

MILT Best Practice

School Entry Date:

School Entry Date should be based on the date the student entered the Funding School.

Kansas Pre-K Pilot Program (KPP):

This information is collected to create awareness of students being served in early learning programs. This field will indicate if the student participates or participated in a district sponsored pre-K program, such as Head Start, a district childcare center, Peer Model/Mentor, or other program (NOTE: this should not include Kansas Parents as Teachers Program Participants during this school year). This field is required for students in grades 00-04.

Kansas Parents as Teachers Program (KPAT):

This information is collected to create awareness of students being served in a specific family program. This field will indicate if the child’s family participates or participated in a Kansas Parents as Teachers Program during this school year. This field is required for students in grades 00-04.

Eligibility for National School Lunch Program:

An indication of the student's eligibility for free or reduced price lunch program. This eligibility is established through the Direct Certification process or the National School Lunch Program application. Approved Community Eligibility Provision (CEP) schools should NOT report 100% in this field. Rather, (CEP) schools should report only students that are eligible for free or reduced lunch based on a completed Household Economic Survey form for each student reported. Non-CEP schools do not need to change the way this data has been reported.

Weighted Funding:

The February 20 count is treated like the September 20 count for enrollment purposes and includes all weighted items (such as vocational, bilingual, and transportation) that are assigned to these students.

Career and Technical Education Contact Minutes:

Report the number of minutes a student received instruction in an approved for funding CTE course or State approved course on February 20.

- Time spent in any approved CTE courses through a post-secondary institution should not be counted toward the minutes reported in this field. The funding for CTE courses that are concurrent enrollment, as reported in the Concurrent High School Enrollment field will not be included in the funding calculations at KSDE.

Miles Transported:

If a student has 2.5 miles or greater reported in the Miles Transported field, the transportation fields (Transportation Street Address, Student's Transportation City, and Student's Transportation Zip Code must contain information for that transported student).

- A seat or an alternate mode of transportation must be provided for each student counted on the transportation list. This would apply to Miles Transported and Transportation FTE – students do not have to actually ride the bus, but should they choose to do so a seat must be made available.
- Students, enrolled in both a public school and private school, are counted for the same FTE on the bus transportation report as their enrollment is counted in the public school.
- Kindergarten students are counted as 1.0 FTE on the transportation list if transportation is provided to and from the attendance center at the district's expense, or if the district provides reimbursement to parents.
- Pupils transported one way by special education transportation on February 20 and one way on regular route transportation can be claimed on regular route transportation as a .5 FTE and can be claimed on the special education transportation Form 308 for the cost of the return trip. However, the actual costs must be kept for the return trip.
- Do not include transportation of students to and from a technical school or community college.

Non-resident Transportation:

The parent or legal guardian of any pupil who lives 2.5 or more miles from the attendance center the pupil would attend in the resident school district may apply to the board of education of a receiving school district for authority for such pupil to be furnished or provided transportation to school from the pupil's residence and from school to the pupil's residence by the receiving school district.
