KIDS 2020-2021 Submission Details Document: TASC

Introduction - General
This document contains information specific to the submission of Teacher and Student Connection (TASC) records to the Kansas Individual Data on Students (KIDS) System data collection. The TASC data collection focuses on providing links among the courses students take during the school year and the educators teaching the courses.

A TASC Collection record is submitted only for those schools participating in Interim Assessments.

Tutorial: Uploading a TASC (Common Issues):
Go through this tutorial to watch how to upload an TASC and work through the issues that may arise.

What's New
- Clarification comment added to Note on Student School Identifier.
- Grade Level value ‘33’

Introduction - Submission Guidelines

**Blank**

Values submitted in these fields will not be validated or stored on the indicated Record Type.

- **C** Required = Conditionally required. Required if certain conditions are meet.
- **E** Must be blank
- **O** Optional = Must contain a valid non-blank value or must be blank; blanks will be considered no response. Field will be validated and stored if submitted.
- **R** Required = Must contain a valid non-blank value; Zero is considered a non-blank value.
- **R*** Required = Must contain one of the provided valid values.
- **X** Required = Must contain a valid non-blank value or must be blank; blanks will be considered a null value.

Optional fields are validated and stored, if submitted. All other data fields that are neither required nor optional for TEST may be left blank. Values in data fields that are neither required nor optional for TEST are not validated and will not be stored. The exception to this is EXIT data (Exit/Withdrawal Date, Exit/Withdrawal Type, and Post-Graduation Plan); exit data fields MUST be blank on TEST records or an error will be generated.
Guidance
The list of recommendations, notes, and submission tips below apply to TASC records. In working with the KIDS Collection System, many circumstances apply only to the record you are submitting. How one data element is reported may change for other submissions from the recommendations appearing below.

Determining “Unique” Records:
- Student's School Identifier
- State Student Identifier
- School Year
- State Subject Area Code
- State Course Identifier
- Educator ID

The most recently submitted record for each complete set of fields above is considered the “current” information for that student and course. Records are considered unique not by one data element but by the set of data elements listed above.

Grade Level Value ‘33’:
Grade level value ‘33’ is a new grade level for students who are three years old on or before August 31 of the current school year and who meet the at-risk criteria for the Preschool-Aged At-Risk program and do not have an IEP for a disability.

Kansas Interactive Testing Engine® (KITE)™:
TASC records are used to create rosters in the Educator Portal in KITE for the purpose of setting up Interim assessments. TASC records are NOT required nor will an assessment be generated for state assessment purposes. For more information about KITE, visit the KITE website.

Success in School:
The Success in School application collects school readiness data for 4-year-old At-Risk and 4-year-old preschoolers. The roster of students available for selection in Success in School is based on the TASC records submitted to the KIDS system for that educator. This requires that TASC records be submitted for 4-year-old-At-Risk and 4-year-old preschool students in the fall.

Undoing Records: To undo a previously submitted TASC record submitted in error, submit a new TASC record with ‘99’ = Record Submitted in Error in the Course Status field, and the same values from the previously submitted record in the following fields:
- Student's School Identifier
- State Student Identifier
- School Year
- State Subject Area Code
- State Course Identifier
- Educator ID

Validations: All TASC records must contain:
- State Student Identifier (SSID) that exists in the KIDS Assignment System
- Student’s School Identifier is a valid school in the Directory
• State Subject Area Code and State Course ID combination is valid for the state
• Educator ID is a valid identification number

Validations are done at the state level. No validations are done to connect a student, teacher, or course to a particular school or district.

Reports
Reports are provided in the KIDS Collection System for review and verification of submitted TASC data. Although data can also be shared by exporting the appropriate KIDS reports to Excel, KIDS users can share detailed data with the principals, superintendents and program staff by encouraging them to register for Read-Only access to the KIDS Collection System. Read-Only access is recommended since reports are dynamic and may change if additional TASC records are submitted to KIDS after the export of reports. The detailed descriptions of each report available in the KIDS Collection System are located on the KIDS Project Report Descriptions website. The following reports are particularly important to TASC submissions:

Student Course:
• Current TASC Records

Standard Reports:
• Accepted Records (Batch)
• Accepted Records by Type—TASC
